

Here we provide a guideline for artwork design of packaging bags. Working closely with you, we will offer our best assistance to bring artworks as good as your expectations.

As you can see from our products category, there are below types of bags available for your options.

### Bag Types available from Texin

- Pillow Bags
- Stand Up Pouch (with bottom gusset)
- Side-gusset bag
- Quad-seal Bags
- Flat Bottom Bags
- Die Cut Bags
- Roll Stock Films

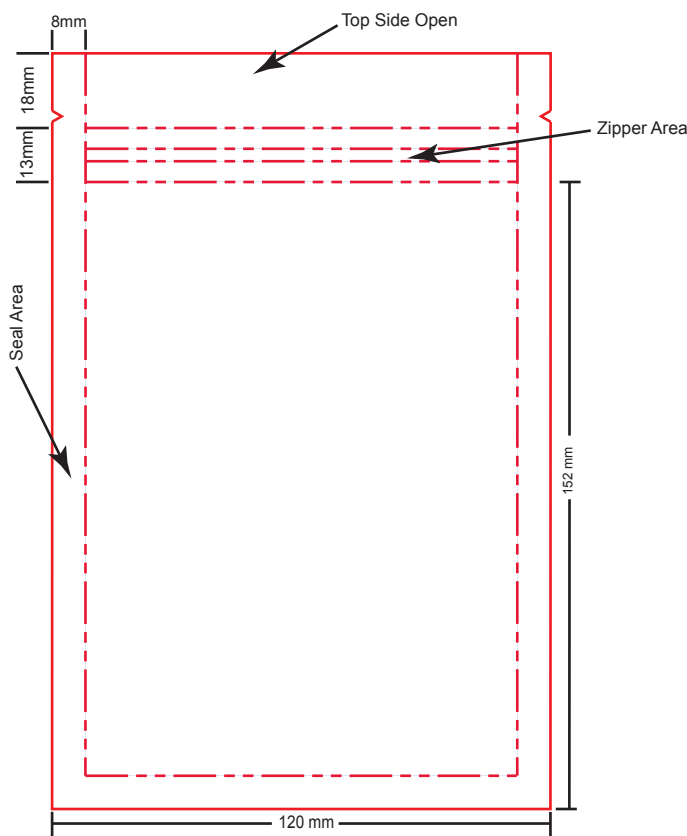

After deciding the bag types, the physical dimensions of the bag must be determined. The corresponding sizes needed for different bag types are as below:

### Dimensions of different types of bags

- Pillow Bags - WidthXLength
- Stand Up Pouch (with bottom gusset) – WidthXHeightXBottom Gusset
- Side-gusset bag – WidthXHeightXSide Gusset
- Quad-seal Bags - WidthXHeightXSide Gusset
- Flat Bottom Bags - WidthXHeightXSide Gusset
- Die Cut Bags – WidthXLength or WidthXHeightXBottom Gusset
- Roll Stock Films – Roll WidthXRoll Length/Roll Weight

Then the third step is to set up a die line according to the sizes. Basically, we offer different dielines available for downloading at our site. You can access to Download to get dielines downloaded. We can make custom dielines according to our customers' requests.

For example, a dielines for a Pillow Zipper Bags:

## Acceptable file formats for printing:

We prefer Vector Art in digital format.

The artworks can be sent via E-mail or CD, customer can also provide download links to us and we will download the file by ourselves. The files must be in one of the formats as below:

- \* Illustrator
- \* Photoshop
- \* Freehand
- \* Coreldraw

For the artworks needed to be done by Texin, customers should provide fonts if necessary. All the fonts in the file must be converted into paths, curves, or outlines.

As to ensure a high quality printing, all resolutions of camera photos should be at least CMYK mode 300 dpi at 1:1 size.

For the process colors matching, we can provide color proof in paper or customers send us the color targets. For the spot colors, a specific Pantone Color code will be requested.
